

Double 44

Non Lit – Double Sided

Description

Procura Double 44 is the workhorse of the double-sided range, sturdy enough for large formats while staying visually slim. Available in open and closed finishes that can be combined in a single build, the open profile's outer groove makes accessory mounting straightforward. The aluminum construction and SEG (silicone edge graphic) technology deliver a taut, professional presentation from either side. Safe to 2.3m freestanding and 3m suspended, with no restriction on width.
